

#### AMENDMENTS TO THE CLAIMS

This listing of the claims will replace, without prejudice, all prior versions and listings of claims in the application.

1. (Currently amended) A compound comprising a water soluble antiviral peptide including one of the sequences GPG and RQGY (**SEQ ID NO: 6**) and, bonded to the C-end of the peptide, a terminator which is ~~either (a) an  $\omega$ -amino-fatty acid having from 4 to 10 carbon atoms and from 0 to 2 carbon-carbon double bonds or (b) a peptide cell-membrane penetrating agent.~~

2-10. (Cancelled)

11. (Previously presented) A compound according to claim 1 in which the terminator is an  $\omega$ -amino saturated fatty acid having from 4 to 8 carbon atoms.

12. (Previously presented) A compound according to claim 1 in which the terminator is an  $\omega$ -amino saturated fatty acid having from 4 to 6 carbon atoms.

13. (Currently amended) A compound ~~according to claim 1~~ comprising a water soluble antiviral peptide including one of the sequences GPG and RQGY (**SEQ ID NO: 6**) and, bonded to the C-end of the peptide, a terminator which ~~in which the terminator is~~  $\gamma$ -aminobutyric acid,  $\delta$ -aminovaleric acid or  $\epsilon$ -aminocaproic acid.

14-18. (Cancelled)
